Description

Location: The property is situated in a rural location immediately to the east of Loch of Skene, some 3 miles west of Westhill and 10 miles from Aberdeen.

The site lies within a small cluster of three houses at Kirkton Bridge, accessed from the B9125 approximately 1.5 miles to the north of Garlogie and a short distance to the south of the A944. An extract plan is provided showing the location of the property.

Description: The property comprises a former Council Roads depot consisting of 2 basic storage sheds which is accessed by a shared private track from the public road.

The site is reasonably level and extends to 0.12 acres (483 square metres). It is bounded by residential properties on either side.

Building 1 is of timber frame construction with a pitched timber trussed roof clad in cement fibre cladding. It has a concrete floor and steel sheeted vehicle access doors.

Building 2 is of light steel frame construction with concrete block dado walls and a semi-circular roof/upper walls clad with cement fibre cladding. It has a concrete floor, steel sheeted vehicle access doors and a single phase electricity supply.

The property is entered in the current Valuation Roll as follows:
